

BANKING
REGULATION AND SUPERVISION
AGENCY

January 13, 2005

PRESS RELEASE

As it is known, our Agency makes publications periodically in order to contribute to the transparency of the banking sector and informing the public.

Within this framework, a new application, the interactive bulletin (e-bulletin) was prepared with the aim of providing users with historically deep, analyzable financial data before they loose currency.

The above-mentioned application, the scope of which will be enriched in time, will enable access to weekly updated (every Monday) significant data on the banking sector.

The e-bulletin is, as of **today**, available on our web site (www.bddk.org.tr) under “e-bulletin” menu or via the direct link <http://ebulten.bddk.org.tr>.
