### **Innovations on Implementations of Banking Sector Interactive Monthly Bulletin and FİNTÜRK (Finance Map of Turkey)**

As it is known, Monthly Bulletin, including detailed financial information relating to banking sector and banks groups as of February 2005, is presented on the official web-site of our Agency and is published in printed manner. Within the scope of management information system studies, executed within the resources of our Agency, by taking into account of incoming demands from users, Monthly Bulletin became interactive and is presented to service as of today under the title “Banking Sector Interactive Monthly Bulletin”.

With the implementation thereof; users’ access to expansive monthly data, including balance sheet, profit-loss, loans, FX position, capital adequacy and main ratios, shall become easier. By making interactive the Monthly Bulletin in providing user interaction, it was furnished opportunity to make date depth inquiries however they want. Besides, it was provided that the change in data set shall reflect automatically to Bulletin items by establishing connection of Bulletin data with database. “Simple Display” is composed for users interested in main financial statements and “Advanced Display” is developed for users who want to make advanced analysis thereof.

On the other hand, it is observed that Finance Map of Turkey, including data in city basis, primarily loan and deposit distribution as to cities, is mainly utilized by bankers, researchers and local administrations. With a view to make a contribution to measure the effects of “Incentive and Encouragement Package” declared, and to share frequently the information produced within the scope of possibilities; the updating frequency of FİNTÜRK (Finance Map of Turkey) implementation decreased to 3 months from 6 months and is presented to service, also retroactive, as of today.
